COFFEE SERVICES

FROM THE ISLAND TEA & COFFEE CO.

Since 1982, we've been crafting and delivering freshly roasted, eco-conscious coffee and locally blended tea to homes and businesses across the UK — from cafés and pubs to offices, hotels, restaurants, and attractions.

As proud members of the British Coffee Association and holders of SALSA accreditation, we source our beans ethically from Brazil, Colombia, Costa Rica, and India. Our commitment to sustainability runs deep: our solar-powered roasters and electric delivery fleet help minimise our carbon footprint while preserving the integrity of every roast. Our craft coffee isn't just about flavour — it's about responsibility. Trusted by many, we blend quality, sustainability, and care into every cup. Experience the perfect balance of taste and conscience. Your journey to superior coffee starts here.

PROVISION OF COFFEE

FROM THE ISLAND TEA & COFFEE CO.

All our freshly roasted coffee is developed and crafted in Rookley, on the Isle of Wight. Our roastery is equipped with machines capable of producing over **250 tonnes of coffee per year**, ensuring consistent quality and scale. Backed by a dedicated team of 16, we go beyond expectations — delivering exceptional flavour and outstanding service with every batch.

SALSA
Safe and Local Supplier Approval

In 2019 we achieved the SALSA food safety accreditation. Confirming that we operate to the highest industry standards and excel in various parts of our operation. This ethos is reflected in our client relationships too, with our in-house food safety lead collaborating with you and sharing their knowledge.

BRITISH COFFEE ASSOCIATION

We are also members of the British Coffee Association (BCA), which represents, promotes and supports all aspects of the UK coffee trade and industry. Together we steer government legislation and promote a balanced view of coffee among consumers and policymakers.

OUR ROASTING ETHOS

At The Island Tea & Coffee Co., we ethically source premium beans from around the world and roast them in our state-of-the-art facility on the Isle of Wight.

Each batch is carefully crafted to unlock unique flavours, reflecting our dedication to quality and sustainability. Our eco-conscious approach extends beyond roasting — from responsible sourcing to environmentally friendly packaging, we're committed to reducing our impact at every stage. Serving a diverse range of customers across the UK, we champion a bean-to-cup journey that's as thoughtful as it is flavourful. Every bag of coffee tells its own story — and we invite you to be part of it.

ORIGIN OF OUR BEANS

VARIETY OF COFFEE FROM AROUND THE WORLD

FRESHLY ROASTED BRAZILLAN ARABICA

These beans have been dried in the cherry, then milled to separate. This gives them a medium body, with light citrus notes and a soft acidity.

FRESHLY ROASTED COLOMBIAN ARABICA

Medium-bodied with rich acidity with a clean and sweet aftertaste. From the Huila region which is characterised by its fertile valley and snow-capped volcanoes, perfect conditions to produce exquisite flavours.

DECAF BRAZIL

Island Coffee beans are beautifully hand roasted on the Isle of Wight by our Master Roaster. We are The Island Tea & Coffee Company and our packaging design is proudly based on the Isle of Wight flag. These decaf beans have been dried in the cherry, then milled to separate. This gives them a medium body, light citrus and chocolate notes.

FRESHLY ROASTED INDIAN ARABICA

Heavy bodied and dry with a chocolatey aroma and notes of spice. Harvested coffee seeds are exposed to the monsoon rain and winds for a period of about 3 - 4 months, causing the beans to swell and lose the original acidity.

FRESHLY ROASTED COSTA RICAN ARABICA

With smooth chocolate notes. This coffee type represents the classic, clean, Central American cup. Great as an espresso or double ristretto.

CUSTOMER-FOCUSED

SERVE COFFEE, WITHOUT INTERRUPTIONS

CUSTOMER CARE

We understand how vital it is to keep your coffee flowing.

Coffee plays a key role in customer satisfaction, operational efficiency, and your business reputation — so when your machine falters, it can be more than just inconvenient. It's frustrating, disruptive, and can impact your bottom line. Sometimes, all it needs is a bit of TLC; other times, it requires expert attention. That's why we offer one of the most responsive service plans available, backed up by our own dedicated workshops - designed to get you back up and brewing with minimal fuss.

OUR TEAM

Our team of highly skilled engineers is here to resolve even the trickiest coffee machine issues. We always aim to fix problems remotely first — saving you time and keeping your service uninterrupted. But if a site visit is needed, we'll be there within 24 hours to carry out a repair or replacement, ensuring your coffee keeps flowing and your customers stay happy.

TRAINING OVERVIEW

Our training opportunities are unlike most others, there are not many places where your team can see how the bean gets roasted, and then follow that through to learning how to create a drink on an espresso machine.

LEARN ABOUT OUR COFFEE

We offer our customers two opportunities for training. The first is a roast and coffee knowledge course, this will help your team know the journey from green bean to cup. It will also help them see the excitement and passion that we have in our product.

BARISTA & MACHINE TRAINING

The second level is barista and machine training, this can follow on from the first if based on our site in Rookley, or can be run with individuals in your business as and when the need arises. See the next page to learn more about our Roasting Experience.

TRAINING PRICING

Training is fully included if you are renting machine(s) from us. If you have purchased a machine, each session costs (excluding VAT):

- £116 per person at our facility in Rookley
- £157 per person at your premises

ECO JOURNEY

The environment is a key part of our ethos , reflected not only in ethically sourced coffee beans but also in our production methods.

This starts with our Master Roaster hand roasting great quality Arabica coffee beans to allow more of the characteristics of the beans to develop. Using coffee roasting machines with short prep times powered by the 77 solar panels on the roof of our offices and warehouse complex.

Once ready, orders are then delivered by our growing fleet of electric vans. Something very important to us, our suppliers, our customers, and an island designated as a UNESCO Biosphere reserve and a National Landscape.
